

"I used Biblia Sacra II with my daughter in 7th grade after having completed Latina Christiana 1 and II over a 4 year period. We had worked extensively on grammar, vocabulary, and translations but she did not have a feel for the flow of the language or the sound of it. I truly appreciated this program which allowed her and I, for I was teaching myself as she learned, to gain an appreciation of the Latin language as a whole. Through this program the student is able to hear God's word read beautifully in Latin and practice speaking it. The student also translates in whole phrases and learns to recognize meaning as a whole - all through the use of Genesis! A very rewarding study!!"
